ART UNIT 322

### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Burraston on Jan 9 2006.

Claim 1, line 10, after "a contact element", --- that is--- has been added.

This change is made in order that claim 1 more clearly require that "the same contact element be joined to a plurality of the columns ", in accordance with arguments presented.

---

The following is an examiner's statement of reasons for allowance: None of the references of record disclose or suggest a contact structure with a "plurality of columns used to support a single contact element or beam ", together with other limitations as required by claims 1, 33 and 35. For claim 22 term "wire " as understood in the art see Beaman 551 wires 15, defines unobviously over a feature such as the White bump pad 16 or the Faraci posts 170,180.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The terminal disclaimer submitted with the last response has been approved.

Art Unit: 2839

Any inquiry concerning this communication should be directed to Neil Abrams at telephone number 571-272-2089.
